- **Front Mounted, wall outlet waste.**
- Fabricated using 14 gauge type 304 stainless steel.
- Integrated slot drain with tailpiece.
- Integrally welded overflow drain.
- Punch for specified faucet.
- Powder Coat Finish

► DESCRIPTION

The 6429 corner sink is a commercial grade sink used for hand washing. This sink is a wall mounted sink constructed of 14 gauge type 304 stainless steel. Alternative stainless steel options available, see options page. Overall sink size is 29" x 22" (737mm x 559mm). These units are designed to be positioned in a corner with the front and one side exposed.

► INSTALLATION

This unit is mounted with two "Z" clips and integral brackets within the sink body. In addition the sink features a bracket that runs the full length of the back and side that features multiple slots that provide numerous mounting locations. The standard trap cover also has mounting locations to attach to the wall with a large removable panel that screws onto the frame to allow easy access to plumb these sinks. Fixture is handicap compliant when installed per guidelines for accessibility.

Fixture designed to reduce possible ligature points. Not a substitute for professional supervision.
